

Fenimore Landfill Update
Friday, September 27, 2013

Landfill Site Work

Assembly of the interim scrubber continues onsite in preparation for testing. Site preparation work for the custom scrubber continues. Work continues to accommodate new electric service for the site. Off-site construction of the custom scrubber continues.

Air Monitoring

The five H₂S air monitoring stations will continue to operate 24/7. The data is telemetered to DEP for review. In addition, the town's contractor, Emilcott, is developing a detailed plan that includes location of four more H₂S monitors and a schedule for their installation.

In anticipation of beginning testing of the interim scrubber, three SO₂ monitors have been set up in "mini-shelters" at the Vanover Well House, Lazarus Pump House, and Ledgewood Pond. All are already running and communicating data back to DEP.

A Look Ahead

Site preparations continue for the custom scrubber, which is being fabricated offsite. Temporary water storage tanks are being delivered to the site.

Work continues to bring water and electric utilities to the landfill for equipment operations.

Fenimore Call Center

DEP has established a call center to assist with resident questions. If you wish to file an odor complaint, call 1-877-WARN-DEP, 24/7. If you wish to ask questions without filing an odor complaint, call DEP at (609) 341-2875 during regular business hours (9:00 a.m. – 5:00 p.m., Monday through Friday). On weekends and evenings and holidays, callers can leave a message and their call will be returned. Questions may also be emailed to RoxburyTwpFenimoreQuestions@dep.state.nj.us.
